StimulusProjectsPSK  
Summary.xls...

I have gone through the Mass Task Force Report document in great detail and created some spreadsheets.

Each spreadsheet concentrates on a specific task force and lists the Acton projects that I think belong there (which is a complete guess in some cases). For each project I have made a tentative checkmark if I think it satisfies a specific criteria.

All of this is highly subjective and I don't understand the details of many of these projects. But I thought this might be useful to the rest of you so I am sending it on.

Please don't respond since I don't want to initiate a discussion. I have tried to avoid value judgments and haven't said which projects I believe we should select for our priority projects.

Paulina

P.S. Please note that there are three 'sheets'. One for energy projects, one for transportation and one for municipal.

Municipal Projects	Estimated Cost	Governor's Principles					Municipal Guiding Principles						
		Invest for long-term	Limit impact on operating budget	Follows Infra Priorities	Diversity (location)	Buy Mass	Shovel Ready in 180 days	Promotes Regionalization	Range of Trades / Industries	Earmarked in a Bond Bill	Leverages other sources of funding	Creates Jobs	Commonwealth Capital Score (Smart Growth)
